

THE 11TH INTERNATIONAL SYMPOSIUM ON WIRELESS PERSONAL MULTIMEDIA COMMUNICATIONS

September 8-11 2008, Lapland, Finland
www.wpmc2008.org

CALL FOR PARTICIPATION

The Centre for Wireless Communications of the University of Oulu hosts the Wireless Personal Multimedia Communications Symposium 2008 (WPMC'08) on 8-11 September 2008. The conference is held in Saariselkä resort, 250 km north from the Arctic Circle, in the most beautiful area of Finnish Lapland.

WPMC'08 is a meeting ground for specialists contributing to "Convergence - Magic meeting the reality" - the theme for WPMC'08. Leading experts from industry, academia and regulatory bodies all have their share in making the event a truly quality one. Besides the main conference, three interesting workshops are organised under the topics: automotive ICT systems (AUTO-ICT), green wireless networking (W-GREEN), and medical & wellness ICT technologies (FEELIT). Tutorials shall be provided free of charge for all IEEE and IEICE student members.

TECHNICAL PROGRAMME

8 September Tutorials, W-GREEN 2008
9 September Plenaries, technical sessions, FEELIT 2008
10 September Plenaries, technical sessions, AUTO-ICT 2008
11 September Technical sessions

WORKSHOPS

Three workshops are included in the WPMC'08 technical programme. One day participation in a single workshop is also possible.

1st International Workshop on Green Wireless Systems (W-GREEN 2008)

8 September 2008

W-GREEN 2008 will focus on the inter-disciplinary research challenges associated with the design, implementation, and application of future wireless technologies aiming at environmental friendly technology deployment.

International Workshop on Future Wellness and Medical ICT Systems (FEELIT 2008)

9 September 2008

FEELIT 2008 will focus on both technological challenges related to wellness and medical ICT systems as well as to related applications.

1st International Workshop on Automotive ICT Systems (AUTOICT 2008)

10 September 2008

AutoICT 2008 will focus on the inter-disciplinary research and technology challenges associated with the design, implementation, and application of future ICT technologies in automotive industry. Special attention is paid to communication technologies.

TUTORIALS

Three tutorial tracks will be organised on Monday 8 September.

Track 1: Sensor Networking (full-day tutorial)

Track 2: Cellular Systems (two-half day tutorials)

Track 3: Cognitive Radio Systems (two half-day tutorials)

ORGANISATION

General Chair	Prof. Matti Latva-aho
TPC Chair, Asia Pacific	Prof. Ryuji Kohno
TPC Chair, Americas	Prof. Behnaam Aazhang
TPC Chair, Europe	Prof. Luis Correia

IMPORTANT DATES

Accommodation reservations by	31 July 2008
Tutorial registration by students	1 August 2008
WPMC 2008	8-11 September 2008
